Primary Examiner, Art Unit 3768

Status of Application: Amendment

(3) _____

(4) _____

Time: Afternoon

(Applicant/Applicant's Representative Signature – if appropriate)

Continuation of Substance of Interview including description of the general nature of what was discussed: In order to place the application in condition for allowance, Examiner suggested several amendments to the claims. Examiner discussed changing the phrase "operatively associated" in line 26 of claim 1 to "attached" or "coupled". Applicant agreed to using the term "coupled". Examiner also suggested that the relationship between the disposable support element and the wedge shaped members be made clear in the claim and suggested claim 1, line 26 be amended to include the phrase ---wherein said emitters and said disposable support elements are coupled with different surfaces of wedge shaped member --- or similar language. Applicant agreed to amend claim 1 to make clear the relationship between the disposable support element and wedge members and further suggested that claim 1 be amended to include the wedge shaped member limitations earlier in the claim where the disposable support element is first introduced in the claim. Applicant agreed to submit a supplemental amendment with the suggested changes. Examiner also discussed canceling claim 5 and amending claim 11 to be dependent on claim 1, which Applicant agreed to.
